### Chapter 1 by Gyro

Log #1

I was sent to fix the future but no one is listening they all think they are right and they don't believe me. I'm been told directions to a crazy center multiple times. These people don't know what they are doing. I've tried to get into the lab to stop them but the doors are always locked (why did I have to be so insecure) and my key card isn't working - John Mann
